## Giving Children Hope Continues to Send Relief to Haiti

Giving Children Hope provides emergency services and relief to children in Orange county and to people all over the world. Their "We've Got Your Back" program provides food for children in need for the weekend—since many children do not have adequate food when they aren't at school. That's just one of the hundreds of programs offered by this amazing non-profit 501c3 organization.

Recently, they have provided literally tons of relief supplies to Haiti with the help of airlines, churches and other corporate and non-profit partners. Contact Elizabeth Saldana, pictured above (center) at the Chambers' Business 2 Business Expo or use the link below to e-mail her to request more information or to find out how you and your company can help.

## Annual State of the City Luncheon Attended by Over 200 Members of the Business Community

Sponsored by: Park Waste & Recycling, AT&T, CARE Ambulance, The Gas Co., and Southern California Edison and hosted by the Buena Park Area Chamber of Commerce.

Chamber board Chairman, Duane Townsend, introduced City Manager Rick Warsinski, who presented an action packed thriller of a State of the City Luncheon on January 27, 2010 at the Holiday Inn Buena Park. Many updates of pending projects, especially in the "entertainment zone" were discussed and illustrated via power point on two huge screens in the Holiday Inn's Grand Ballroom. City Council members were highlighted in a fun way through video depicting them involved in some of their many city projects.

The "action packed thriller" part started with Warsinski roaring into the ballroom on a Harley—much to the delight and awe of the crowd! A video of the presentation will be on the City's website at <http://www.buenapark.com>

*Photos by Loreen* City Manager Warsinski changes out of his leather motorcycle jacket and helmet into his suit jacket before starting his program.

### Chamber CEO Has Advice for You!!

We all know how important it is to "BACK UP YOUR COMPUTER" - right? Take it from me—do it more often than you do now! The day before the State of the City Luncheon, my chamber computer crashed. I had last backed up mid-December, and this was the end of January. Not good! Quick Books files suddenly had no customers, no vendors and no employees.

It has taken just about three weeks to have the computer "wiped clean" and MOST all software re-installed. Intuit support recovered most data so that our financials are in balance. New Member, Fast-teks spent 4 hours taking care of us on a Saturday, no less. Moral of the story: If I'm late to your meeting, I'm just backing up my computer before I shut down!
